10 RULES FOR WORKPLACE SAFETY

A black silhouette of a worker wearing a yellow hard hat, an orange high-visibility vest with reflective stripes, and black boots. The worker is standing with arms slightly out to the sides, giving a thumbs-up gesture with both hands.

- 1** You are responsible for your own safety and for the safety of others.
- 2** All accidents are preventable.
- 3** Do not take short cuts. Always follow the rules.
- 4** If you are not trained, don't do it.
- 5** Use the right tools & equipment and use them in the right way
- 6** Assess the risks before you approach your work.
- 7** Never wear loose clothes or slippery footwear.
- 8** Do not indulge in horseplay while at work.
- 9** Practice good housekeeping.
- 10** Always wear PPEs.

Signing in the warehouse

Workers should be properly aware of safety procedures on the job as well as any potential hazards in the warehouse. Signage available to distribution centers include forklift safety signs, clearance height and capacity signs, quality control signs, safety reminder signs, and more.

Aisle and pole marking signs help forklift drivers navigate around corners and in tight spots without damaging their equipment and the storage racks and shelves.

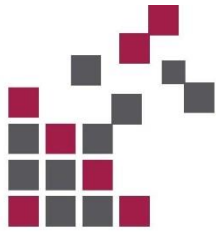

Improperly labeled and managed warehouses can be a breeding ground for workplace injuries. Signs should never be taken for granted when it comes to workplace safety.
